Pratik Lamsal

Cloud Engineer | MSCS @ Georgia Tech | AI
United States

Summary

Innovator, collaborator, and data-driven problem-solver equipped with a developer mindset and 6+ years of hands-on experience, driving DevOps initiatives to build and maintain cutting-edge, scalable solutions. Track record of working with IT partners, stakeholders, and agile teams to execute development projects, leveraging expertise in core objectives of DevOps philosophy and best practices to optimize IT operations within cloud environments utilizing big data and machine learning technologies. Recognized for the ability to quickly master new platforms, tools, and processes, effectively handle multiple competing priorities, and thrive in fast-paced remote and in-person environments.
